WORK EXPERIENCE

Front-End developer - freelance

2022 – present

- Primarily using **React** as well as **vanilla** on projects framework for **front-end**.
- Leveraged expertise in **HTML, CSS, and JavaScript** to create **responsive** and visually engaging user interfaces.
- Employed **effective communication and problem-solving skills** to understand client requirements, propose solutions, and deliver projects on time and within budget.

Game developer – freelance.

2021 - present

- **Independently** conceived, designed, and developed a captivating **2D indie game for mobile platforms**, leveraging my expertise in game design and software engineering.
- Seamlessly implemented gameplay **mechanics, captivating visuals, and immersive sound effects** to create an engaging player experience.
- Published the game on the Google Play Store, achieving **3,000+ downloads**.
- Additionally, orchestrated a **5% increase** in user base through **targeted marketing** efforts and community engagement strategies, driving **sustained growth** and recognition for the game.
